Syed S. Rizvi Presented 2 Papers in the 9th LCI International Conference on High Performance Clustered Computing

Syed Rizvi presented two papers in the 9th LCI International Conference on High Performance Clustered Computing, which was held in National Center for Supercomputing Applications, University of Illinois at Urbana-Champaign, during April 29-May 1, 2008. The contribution of these accepted papers is the performance optimization of time management algorithms for large parallel and distributed networks. The following researchers have contributed in the accepted papers:
