- Human Services
- Law Enforcement
- Mental Health Services
- Office Administration
- Program Development
- Public Administration
- Social Work

The General Studies degree with a concentration in Social Science addresses the traditional subjects that form a shared intellectual heritage of our diverse culture; history, human services, political science, psychology, sociology, and world religions. The program is particularly focused in the area of interpersonal and professional communications, group dynamics, community and social studies that fosters leadership and development. The curriculum prepares students to gain knowledge from the technological, scientific, and societal changes and further the important social and ethical concerns that affect quality of life.

Social Science Overview:

The Social Science concentration is the most frequently chosen interdisciplinary major of the General Studies degree. The Social Science major allows for the acquisition of the broad base of knowledge necessary to meet the requirements for students planning to continue on to a graduate program in Education or Social Work or Human Services/Counseling.

The Bachelor of Science in General Studies degree offered through the IDEAL program has been designed specifically to meet the needs of adults completing a bachelor's degree and seeking maximum flexibility and breadth in their studies. A liberal number of free electives are permitted within the Social Science concentration, where students can accommodate all or most of their previous college studies. The accelerated format of the Social Science concentration, offered through the IDEAL program, makes it possible for students to reach personal and career goals at a pace and at times that fit the schedule of working adults.

BRIDGEPORT**

Opening doors. Building futures.

About UB

The University of Bridgeport is an international, doctoral-intensive, comprehensive university, offering award-winning academic programs in a variety of innovative undergraduate and graduate degree programs. Our 50-acre, seaside campus overlooks Long Island Sound on Connecticut's corporate Gold Coast, and is within easy driving distance of New York City and Boston.

Our student-faculty ratio is 15:1, and our full and part-time faculty members include Fulbright Scholars, National Science Foundation Fellows, Ford Fellows, National Endowment for the Humanities Fellows, American Council for Learned Societies Scholars and Phi Beta Kappa Scholars. Some 32 percent of our students are members of minorities and students from more than 80 countries live and learn within our community.

Program of Study

The Bachelor of Science in General Studies with a concentration in Social Science degree program requires 120 semester credit hours including 30 credit hours in the program requirements, 48 credit hours in general electives and 42 credit hours in the university core.
