

MATH 105 ID

PRELIMINARY COURSE SYLLABUS

Please read the following course syllabus carefully, especially the course dates, times and location. If you have any questions, please do not hesitate to communicate with the IDEAL Program office, your academic advisor, or the instructor.

The IDEAL degree-completion program is designed with the adult learner in mind. Adult learners approach learning with specific goals, want to be able to directly apply new learning to their work and personal lives, and tend to learn best when the coursework is problem-centered so that they are actively engaged in the learning process. In addition, adults bring rich and varied experience to the classroom, which becomes a valuable learning resource for other students.

The IDEAL Program assumes joint responsibility in the learning process. The activities and assignments in the courses build on the shared experience of all learners in each class. This is why each student's preparation, participation and interaction in class activities and discussions are critical to the success of each course. The accelerated format of each course requires a significant amount your time outside the classroom to prepare for and complete the course assignments. This varies between students and courses; however, students typically spend nine-twelve hours per week on course material.

To participate in the IDEAL Program, it is expected that you will do the following:

1. Attend every class session. Be on time.
2. Obtain the required course materials prior to the first class session.
3. Complete the first assignment prior to the first class session and all subsequent assignments to the best of your ability.
4. Participate in the class discussions and demonstrate respect and consideration to the instructor and other students when they express themselves in discussion.

If you cannot perform these four expectations, it is recommended that you drop the course. We look forward to your academic success in each course and the ultimate completion of your degree.

Course No. & Title: MATH 105 ID, Intermediate Algebra

Semester and Term: SUMMER 2014

Day and Dates: Saturdays, 5/17/2014 – 8/ 23/14

Time: 9am – 12pm

Campus Location: Bridgeport

Course Description:

A survey course in selected topics from college algebra and elementary functions. This course satisfies the Core Curriculum Basic Skills mathematics requirement. Topics include set notion, number systems, rules of algebra, operations with polynomials, factoring, linear equations and inequalities, solving polynomial equations, linear systems, and functions.

Prerequisite Course: MATH 100 or Placement Exam

Course Code: LA, UC

Instructor & contact information: Professor Warren Kunz

Phone: 203-322-0890 (home)

Email: wkunz@bridgeport.edu

Required Materials:

1) Regular 2-subject notebook or 3-ring binder with paper for notes/group work/classwork.

2) MyMathLab online supplement: This is where all your homework assignments and quizzes will be completed. The purchase of a textbook is not required as the online supplement already contains the textbook in the “Multimedia Library” link. The cost for this supplement is \$88.00. *Please note that you may already have an account with MML if you’ve purchased one last semester for the MAT 100 course.*

Recommended Materials:

- a) Folder: recommended for information (class syllabus, classwork handouts, etc)
- b) Ruler and graphing paper: recommended for graphing straight edges.

Register for your course on My Math Lab:

****You will have to purchase MyMathLab unless you have it from last term. If you have any problem doing so contact me and I will help you through the process. The course will be up and running on or before May1.**

To register for MyLab and Mastering:

1. On the MyLab and Mastering website, click **Student** under **Register**.
2. Enter the **Course ID** your instructor gave you, and click **Continue**.
 - If you don't have a course ID yet, contact your instructor.
 - If your course doesn't have a corresponding course ID, register on your product's website:

Select your product:

3. Sign in or create an account:
 - If you already have a Pearson account, enter your username and password. Click **Sign In**.
 - If you don't have an account, click **Create an account**. Add your account information, and read and accept the license agreement. Click **Create Account**.
 - To retrieve your account information, click **Forgot your username and password**

Note: On the Sign In page, check that the course details are correct, If not, click **Enter a different course ID**.

4. To select an option to register for access to your course, do one of the following:
 - If you already bought your access code, either bundled with your textbook or as an access code kit sold individually, click **Access Code**. Next, enter your access code and click **Finish**.
 - To buy your course online, click **Use a Credit Card or PayPal**, and then **the** item you want. You can choose different items that correspond to the same textbook. For example, for some textbooks, you can choose to buy its eText. Next, enter your credit card or PayPal information, and review and submit your order.
 - If you're waiting for financial aid, click **Get temporary access without payment for 17 days**. Click Yes when a message appears asking if you are sure you want temporary access.

A Confirmation page appears where you can go to your course.

Course ID: TBA

Learning Outcomes:

Upon completion of this course the student should be able to:

- Develop and use critical and analytical thinking to describe or interpret quantitative data from real world situations.
- Draw logical conclusion from given facts and ideas.
- Apply arithmetic and basic algebra to problem-solving.
- Interpret numerical information presented in charts and graphs.
- Integrate facts, skills, procedural knowledge, conceptual understanding, problem solving, applications, reasoning, mathematical communication and team spirit within a project.

First Assignment Prior to the First Class:

Get registered for MyMathLab and send me an email greeting through it. Review sections listed in the outline for the first class. There will be a brief review of Chapter 5 topics covered in MAT 100. Students are encouraged to review these as preparation for more advanced topics using these skills

Description of Weekly Sessions: (each class is divided into two 75 minute segments with a break between and a wrap-up session after the second segment). Text sections designated in the outline below should be reviewed before each evening's class. Homework assignments will be made available through MyMathLab following the completion of each lecture. These should be completed before the following week's lecture so you will be prepared for the review and Q & A that following class. Short quizzes will be given in class regularly to provide instant feedback to both you and I. These are generally given after a topic is covered and a HW assignment has been reviewed. The course outline is an approximation and is subject to change based on progress in the course each week. Changes and quiz dates will be announced the week before and may or may not match the outline.

Assignments:

COURSE CALENDAR

<u>DATE</u>	<u>SECTION</u>	<u>TOPICS AND ISSUES</u>
5/17/14	5.1 – 5.6	Introduction to the course. Review of operations involving exponents. Scientific notation
5/24	6.1 – 6.4	Introduction to Factoring of polynomials
5/31	11.1 – 11.2	Complete factoring. Quadratic equations and use of the Quadratic formula

6/7		Complete work on Quadratic equations
6/14	7.1, 2, 4, 6	Rational expressions and equations involving rationals
6/21	4.7	Complete rationals. Word problems involving rationals
6/28	4.1 – 4.2	Graphing and graphing of equations
7/5	4.4 - 4.5, 4.7	Slopes and intercepts. Introduction to Functions
7/12	9.1 – 9.3	Systems of equations (graphical, substitution and elimination methods)
7/19		Complete systems of linear equations
7/26	10.1 – 10.2	Operations with Radicals and Exponents
8/2		Whole course review and preparation for the Final exam
8/9		EARLY/PRACTICE FINAL
8/16		Last review and strategies for Final Examination
8/23		FINAL EXAMINATION and end of the course

Grading Criteria:

Quizzes.....	30%
Homework assignments (online).....	30%
Final Examination.....	40%

Grading policies will only be changed with consent of the class

Class Policies: Students are expected to act in a professional manner; this to include punctuality and regular attendance. Students are responsible for missed work and assignments. These are vital to success in this course.

Letter Grading Scale:

% of Points Earned	Letter Grade	% of Points Earned	Letter Grade
100-94	A	76-74	C
93-90	A-	73-70	C-
89-87	B+	69-67	D+
86-84	B	66-64	D
83-80	B-	63-60	D-
79-77	C+	Below 60	F

ACADEMIC POLICIES

Attendance Policy

Classroom attendance is an integral part of the academic experience; therefore, students are expected to attend all class sessions. If an absence is unavoidable, the student, prior to class, should communicate with the instructor. Arrangements should be made at that time for submission of any missed assignments. It is also expected that students arrive on time and not leave until the class is dismissed. Tardiness will result in a reduced grade for the course. If you cannot attend every class session you should consider dropping the course.

IMPORTANT:

- Missing one class session will drop the final grade by one letter grade (for example if a student earns a grade of “B” in the course, the final grade would be a “C”).
- Missing two or more class sessions will be cause for a failing grade.
- Note: For 15-week courses; missing two class sessions will result in a letter grade drop and three or more will cause a failing grade.

Drop Procedures

To drop a course, you must complete and submit a Schedule Change Request Form. The form can be accessed at the IDEAL Course Schedule webpage:

<http://www.bridgeport.edu/academics/continuinged/ideal-academic-degree-programs-and-certificates/ideal-course-schedule/>.

Please print and complete the form and fax the form to the IDEAL Office: 203-576-4537. Prior to dropping a course, the student should contact their IDEAL Academic Advisor to understand the implications to financial aid and/or degree plan progress.

Please review the drop fees and tuition refunds at the Academic Calendar; accessed at the IDEAL Course Schedule webpage (same link above).

Cell Phones

Cell phones must be turned off (or placed on “vibrate”) while in the classroom. A cell phone call is disruptive and disrespectful to the other students in the class.

Academic Dishonesty

The IDEAL program prohibits all forms of academic dishonesty. Academic dishonesty is normally defined as, but not limited to, the following two categories:

Cheating – Using inappropriate sources of information in an assignment or on a test. The following are examples of cheating taken from real student experiences:

Case #1: A student is enrolled in an introductory psychology course. He has co-workers who have taken the same course. As the end of the course approaches, he wonders how he will find the time to get the research paper finished, and asks one of his co-workers for help. His co-worker hands him a research paper that he submitted in a similar course. The student makes minor modifications to the paper, and submits it under his own name.

Case #2: A student enrolled in a humanities course is unsure about how to structure an essay. She is doing research on the World Wide Web, and comes across an essay written by a student from another university. Using her computer mouse, she copies and pastes the essay into her word processor. She goes to great lengths to re-word the paper in her own style, but essentially leaves the content and organization the same.

Plagiarism – Intentional as well as unintentional failure to acknowledge sources as well as the use of commercially available so-called “research papers” without full recognition of the source. Presenting as one’s own, the ideas, words, or products of another. The following are examples of plagiarism taken from real student experiences:

Case #3: A student is conducting research for a Civil War research paper. He has reviewed work on the Internet. Finding helpful information, he has summarized his findings without citing his sources. He believes that minor paraphrasing is all that is necessary.

Case #4: A student is writing a paper that requires her to address specific topics and problems in the assigned course textbook. She takes the information directly from the textbook with slight modification, without giving any citation. She thinks that since it is the course textbook, she doesn’t have to use quotations or citations.

Academic dishonesty applies to all courses, assignments or exams completed by students and submitted as their own original work, whether in person or by electronic means. The University does not tolerate cheating in any form. It is a serious breach of conduct with serious consequences. Instructors have the right to determine the appropriate penalty for academic dishonesty in their own courses; generally, however, such acts will result in a failing grade for the assignment and/or the course. The penalty for subsequent acts of academic dishonesty may include expulsion.

More information on how to recognize plagiarism can be found at this site:
http://www.indiana.edu/~istd/plagiarism_test.html

Ethics Statement of Confidentiality

An integral component of an IDEAL course is student and faculty expression of personal experiences for the purpose of facilitating coursework. Students enrolled in the program are expected to honor confidentiality as it pertains to student disclosure. Shared information,

comments, or opinions expressed by another student or the faculty member during the course of classroom discussion should never be used in a manner which is intended to humiliate, embarrass, harass, damage, or otherwise injure other students in their personal, public, or business lives. In addition, confidentiality must be upheld by not disclosing any information that would identify any particular individual.

ACADEMIC RESOURCE CENTER

The Academic Resource Center is available for IDEAL students seeking help in their studies. The Center is staffed by writing professionals and peer tutors. More information can be found at: <http://www.bridgeport.edu/pages/2209.asp> The Center is located on the 5th Floor of the Wahlstrom Library. Make an appointment or walk-in: Telephone: 203-576-4290. **Online Tutoring** is available at: www.eturoring.org. To use this free service you must have a UBNet account.

Obtaining a UBNet Account

Every registered student should obtain a UBNet Account. The account allows you to access MyUB; the portal for grades, library services, Canvas online learning system. Also, the account allows you access to computers in the Library and computer labs, and provides an email account in which the University sends out information. Go to: <http://www.bridgeport.edu/ubnet> - Click on "New UBNet Account" and follow the instructions.

The @bridgeport.edu email address is the official email the University uses to send information to you. You can have your bridgeport.edu email forwarded to any other private email account you use. Following the activation of your UBNet account (takes 24 hours), login at: <http://www.bridgeport.edu/email> and click on "forwards" at the top of the page. Follow the directions to forward email messages to your other account.

Learning Management System (LMS) - Canvas

For all courses that use Canvas, you can access Canvas through the portal by using the myUB link. Faculty post class documents on Canvas e.g. syllabus, power points, discussion questions, case studies, current event articles, papers, reports etc. (save some trees). All students have access, and can download and copy the documents.

Canvas Tutorial For Students: <https://bridgeport.instructure.com/courses/985903>

For assistance contact the UB Help Desk at 203-576-4606 or email helpdesk@bridgeport.edu <https://bridgeport.instructure.com/courses/829447/>

Accessing Your Grades & Schedule Online

The WebAdvisor online information system allows students to search for available classes, check grades, view semester class schedule and verify your personal profile. Grades are generally posted 2-3 weeks following the end of a course. To access WebAdvisor, login in to MyUB and follow the WebAdvisor menu on the right. If you are carrying a financial balance, access to WebAdvisor will be restricted.

Using the Library

Access to the Digital Library is through MyUB. On the MyUB home, in the central column, click on "myEureka Digital Library." Research tools available:

- Search for books held at the library.
- Search the online databases for your academic field; business, counseling, human services, psychology, etc.

- Send questions to the Reference Librarian for assistance in research topics and searching strategy.

Using Computers

Open access computer labs are available at three locations:

- Bridgeport – 1st floor of the Wahlstrom library. Check library hours of operation at: <http://www.bridgeport.edu/library>.
- Stamford – Room D; Check open hours at: <http://www.bridgeport.edu/stamford>
- Waterbury – Computer Lab; Check open hours at: <http://www.bridgeport.edu/waterbury>

Course Cancellations

Any emergency necessitating the canceling of courses will be announced by the University through the Emergency Notification Telephone Line, (203) 576-4159. Please call this number for information on course cancellations. Also, information will be posted under “Latest News” on the UB home page, (www.bridgeport.edu). Canceled classes will be made up either the week following the end of the course or in consultation between the instructor and the students as to day and time availability. Course cancellations are also announced on television and radio stations.
