Dr. Elleithy Presented a Paper in the 5th Annual IEEE Consumer Communications and Networking Conference

Dr. Elleithy presented a paper in the 5th Annual IEEE Consumer Communications and Networking Conference (IEEE CCNC'2008) which was held in Las Vegas, Nevada during January 10 - 12, 2008. The accepted paper is the outcome of an extensive research work carried out in the WMC lab on the wireless DS-CDMA multiuser receivers. The copy of the published paper can be found here [PDF]. The following researchers have actively participated in this research work.

 Syed S. Rizvi, Khaled M. Elleithy, and Aasia Riasat, "Deterministic Formalization of the Processing Gain for Reducing MAI in Wireless Multiuser DS-CDMA Systems," 5th Annual IEEE Consumer Communications and Networking Conference (IEEE CCNC'2008), pp. 859-860, January 10 – 12, 2008 in Las Vegas, Nevada.
