

Master of Science in Analytics and Systems

Transform information into intelligence

Do you find new information fascinating? If you have a head for numbers and a keen eye for innovation, a career in analytics can help you make a meaningful difference — positioning you to impact diverse organizations by supporting data-driven decisions. By earning your MS in Data Analytics, you can prepare for a future as a sought-after professional. At University of Bridgeport, we'll equip you for success in this in-demand field — leveling up your skills and opening doors to rewarding opportunities.

Empowering insights — advancing innovation

Analytics professionals leverage information to help organizations thrive — inspiring and empowering long-term success through data-driven insights. At University of Bridgeport's Ernest C. Trefz School of Business, you will gain the knowledge and skills necessary to achieve advanced roles in this indispensable field. Our expert instructors come from diverse personal and professional backgrounds — bringing unique and valuable perspectives to the classroom. Through a comprehensive curriculum designed to advance your skills, you will hone your Analytics knowledge in a collaborative and supportive learning environment.

An MS in Analytics — earned your way

At UB, we understand that one size doesn't fit all. That's why we offer flexible options for earning your master's in Data Analytics. You can complete your studies online or on campus, allowing you to take classes at your convenience. Whether you join us on-site or remotely, you'll have the freedom to choose between a thesis or internship degree track. Our MS in Data Analytics can also be combined with a dual master's degree in Business Administration (MBA) — positioning you as a stand-out professional as you pursue advanced roles in the field.

Admission requirements

Program prerequisites

- Bachelor's degree from an accredited university or recognized international institution
- It is recommended to have an undergraduate degree in Economics, Information Systems, Management, Mathematics, or Statistics
- Cumulative undergraduate GPA of 3.0 or higher, or if below 3.0, at least five years of relevant work experience

Required materials

- Application
- Official transcript for the last degree earned. To be considered for a scholarship and prerequisite waivers, you must submit transcripts from each institution attended.
- Two letters of recommendation
 - Letters may come from employers, professors or professional associates and should describe your work ethic, academic or work experience, and why you would be a good fit for the program
- Personal statement
 - In 250-500 words, detail why you are seeking an MS in Analytics, how you expect to apply your degree to your professional career after graduation, and why you seek to pursue your degree through University of Bridgeport
- Resumé
